PROCESS INFORMATION AT YOUR FINGERTIPS

Know where and how your product is stored. Know your exact production quantities. Check out past production procedures to trace your products. Follow your production recipes with projected and real consumptions. Trace back in time to check seasonality for correct capacity production planning. Know exactly your product yield and energy consumption for performing correct cost analysis and margin calculation.

ACCURATE DECISION MAKING WITH REPORTAS

Whatever your needs are, with REPORTAS you get your answers. Plant production information is available to help you make the right decisions fast and accurately. Choose from our ready well tested standard reports or request any customization solution that meets your needs! And Don't Forget:

knowledge is power!

CUSTOMIZED REPORTING SOLUTIONS

Ask for any specific customization that you may need. We built special application reports according to your specifications, to be adjusted to your production lines.

WEB REPORTING SOLUTIONS

Follow your process traceability and provide to your administration executives high quality reporting and trends analysis all the time over the internet.

OTHER REPORTING SOLUTIONS

Use the REPORTAS tool to other non-Siemens solutions! Use your own IT department or ask us to help you connect your automation system and get all the required information.
